

K-Love serves our local community by ministering to sick, imprisoned and needy people. People that desperately need to hear that someone cares for them and loves them. Without K-Love, our community would be a poorer place. Each year, thousands of people are talked out of committing suicide by talking with the staff

pastors on duty. This not only helps the individual in obvious ways but will save the community by reducing police and medical employee calls. Please do not LPFM stations to take priority over FM translator services.

Thank you

on police and medical response workers.
